

EMOCLEAN 1500

Water Soluble Washing Solution (Concentrate) Specially for Aluminum

Features:

- Effective cleaning agents drive off any kind of extremely greasy and oily film on the jobs.
- The environment friendly additives are very soft on machines and operators but very harsh on any stubborn sticky oily films on the jobs.
- The cleaning agents penetrate deep to drive off any dirt, chips or oily material in the holes drilled or tapped and from the surfaces to give a clean job, which passes required Millipore test.

Uses:

- It can be used for ferrous and non ferrous material with operational temperature varying from 40 to 65 °c.
- Operational solution pressure may vary from 2-20 Bar depending on the geometry of the job and Millipore values required.
- Dilution ratio: 1:30

Health Hazard & Safety:

The ingredients are environmentally and operationally safe. Keep the exhaust of the machines in working conditions for operational temperatures above 40 °c.

CHEMICAL & PHYSICAL PROPERTIES

TEST PARAMETERS	SPECIFICATIONS
Appearance	Clear, Golden
Density @ 27° c gm/ml	1.02 ± 0.03
pH of 5% Solution	9.2 ± 0.2
Cast iron corrosion test	Passes test
Copper strip corrosion test	Passes test
