

## **METALFIN-15G**

### **New technology Neat Type Metal Working Fluid**

It is specially formulated by using modern, highly refined and hydro-treated base oils of consistent performance, oxidative stability. It is low viscosity, low misting metalworking fluid, best suited for grinding, shaping, deep hole drilling, gun drilling and general machining for all ferrous and non-ferrous metals and alloys.

The effectively designed and formulated extreme pressure additives and lubricants can withstand moderate to heavy load with fast and effecting cooling while operation. However it's not suitable for honing operations.

#### **CHEMICAL & PHYSICAL PROPERTIES**

<b>TEST PARAMETERS</b>	<b>SPECIFICATIONS</b>
<b>Appearance</b>	Clear, Light Yellow
<b>Flash Point</b>	160 ± 10°C
<b>Kinematic Viscosity @ 40°C</b>	12 ± 3
<b>Density @ 40°C</b>	0.85 ± 0.02
<b>Copper strip corrosion test for 3 hrs. at 100°C</b>	Passes test
<b>Cast iron corrosion test</b>	Passes test
