

METALFIN-22G

New technology Neat Type Metal Working Fluid

It is specially formulated by using modern, highly refined and hydro-treated base oils of consistent performance, oxidative stability. It is low viscosity, low misting metalworking fluid, best suited for grinding, shaping, deep hole drilling, gun drilling and general machining for all ferrous and non-ferrous metals and alloys.

The effectively designed and formulated extreme pressure additives and lubricants can withstand moderate to heavy load with fast and effecting cooling while operation. However, it's not suitable for honing operations.

CHEMICAL & PHYSICAL PROPERTIES

TEST PARAMETERS	SPECIFICATIONS
Appearance	Clear, Slight Yellow
Flash Point	170 ± 10°C
Kinematic Viscosity @ 40°C	22 ± 3
Density @ 40°C	0.88 ± 0.02
Copper strip corrosion test for 3 hrs. at 100°C	Passes test
Cast iron corrosion test	Passes test
